

Dear.....

We are writing to inform you that we are offering a drop in therapy service for students who feel in crisis. This is a drop in service only and is for students in immediate need. The service is available on a Wednesday, as a part of school life, and referrals are made by the school, on the day of crisis, with the students consent. It is a confidential service, which means that the therapist creates a confidential and private space for our students, to allow them space to express how they are feeling and regain a level of equilibrium. Confidentiality is key for students, however, any concerns around a student's wellbeing or if recommendations need to be made, this will be passed onto Tam Mitchell (Student Support Leader) or Chris Berry (Deputy Headteacher), who will be the interface between the Drop in service, School and Parents. If you have any objections to your child accessing this service please let us know either by email or telephoning the school on 01489 582684. Otherwise we will use this service unless notified differently.

For further information about this service please visit our website.

Yours faithfully

Tamara Mitchell

Student Support Leader
